### MEMORANDUM FOR DISTRIBUTION

**SUBJECT:** Department of Defense Information Network (DoDIN) Approved Products List (APL) approval of the MicroAutomation, Inc. Omni911 Release (Rel.) 4.0 Tracking Number (TN) 1816501 as a Customer Premise Equipment (CPE)

**Reference:** (a) DoDI 8100.04, "DoD Unified Capabilities," 09 December 2010  
(b) DoD CIO "Unified Capabilities Requirements (UCR) 2013," July 2013

1. DoDIN APL approval of the MicroAutomation, Inc. Omni911 Rel. 4.0 TN 1816501 as a CPE has been granted. The Risk Management Executive (RME) recommended DoDIN APL placement on 01 March 2019 based on the Cybersecurity (CS) testing completed by the Joint Interoperability Test Command (JITC) Fort Huachuca-led CS test teams. This solution achieved Interoperability (IO) certification from the Joint Interoperability Test Command (JITC) on 06 November 2018. This approval is effective upon the date of this memorandum and expires **01 March 2022** unless a critical issue is identified that invalidates either the CS or the IO posture of this product as determined by the JITC or the Chief Information Officers (CIO) for Combatant Commands, Services, and Agencies. Please note that Services and Agencies are required to recertify and reaccredit their systems every three years. Please refer to the DoDIN APL for official posting of this solution at the following site: <https://aplots.disa.mil/apl>.
2. This product/solution must be implemented only in the configuration that was tested and approved. To ensure an acceptable level of risk for each site's Authorizing Official (AO) / Designated Accrediting Authority (DAA), please utilize this solution's deployment guide and refer to the Conditions of Fielding (CoF) as depicted within the Cybersecurity Assessment Report (CAR). The CAR is included in the Cybersecurity Assessment Package (CAP) and can be requested from the Approved Products Certification Office (APCO) per paragraph 4 of this document.
3. The IO certification letter containing the detailed components and configuration on this product is available at the following site:  
[http://jitic.fhu.disa.mil/tssi/cert\\_pdfs/Microautomation\\_Omni911\\_4.0\\_CPE\\_PSAP\\_1816501\\_Initial\\_6Nov18.pdf](http://jitic.fhu.disa.mil/tssi/cert_pdfs/Microautomation_Omni911_4.0_CPE_PSAP_1816501_Initial_6Nov18.pdf)
4. Due to the sensitivity of the information, the CAP must be requested directly from the APCO by a government civilian or uniformed military personnel.
